

The new Series 7000 Large Power System from MicroAire®

Offering the ultimate in convenience and versatility, Series 7000 hand pieces function as both cordless and electric instruments. Choose between the industry's first autoclavable or aseptic transfer NiMH battery or the Direct Power Console.

MicroAire BATTERY CHARGER 7500-700

MicroAire LARGE BATTERY PACK 7505-710

Features **14.4 Volt Nickel Metal Hydride (NiMH) rechargeable, autoclavable or aseptic transfer battery**

MicroAire NiMH batteries have 30% more power than the leading NiCad system

Four charging bays

NiMH batteries do not contain memory and have longer run times

Charges all MicroAire batteries within 90 minutes

MicroAire NiMH batteries last 3x as long as the competition

DIRECT POWER CONSOLE 7025

Features **Simple dedicated electric power supply converts hand pieces to electric**

Fully autoclavable console pack and cable

Use as dedicated electric or as a battery backup

ASEPTIC BATTERY SYSTEM 7500-615

Features **Non-sterile aseptic transfer, battery never needs autoclaving**

For use on any MicroAire battery powered hand piece
