

# HCP - Hofer Clavicula Pin

HCPd & HCPs - Hofer Clavicula Pin Dynamic & Static

# Advantages of the Hofer Clavicula Pin

The intramedullary screw-system HCP by Hofer-medical is characterised by a particularly easy implantation technology as a result of the special shaping of the implant.

- + Minimally invasive implantation
- + Short implantation procedure
- + Quick recovery time post-surgery

## creating partnership

For us, a partnership is the result of a long and happy relationship in all areas of our work. Reliable bone healing for patients, optimal handling of the systems for surgeons and surgical personnel, as well as the simple preparation of the instruments, constantly strengthen this partnership.

For us, "creating" means more than just finding solutions in the form of innovative products.

It is the result of high standards, constant development, innovative products and excellent service for patients, surgeons and surgical personnel around the clock.

Please do not hesitate to contact us if you have questions about our company, our employees or our production methods.
